SUBJECT No. 499.

A road from Nyamti to meet the Shikarpur-Honnali road near Jakkenkoppa.

Messrs. Revanasiddiah, Gurulingappa and Halappa, Honnali taluk.

Summary of discussion.—A road may be opened from the Ayanur-Honnali road near Nyamti so as to meet the Shikarpur-Honnali road near Jakkenkoppa, passing *via* Maileganahalli, Mugalihalli and Belagutti, as it is very much needed for traffic. Along with this road may be constructed a road from Belagutti to Tirtharameswara which is a place of pilgrimage.

Reply of Government.—Recorded.

SUBJECT No. 500.

The Ayanur-Honnali road to pass through Nyamti town.

Messrs. Revanasiddiah, Gurulingappa and Halappa, Honnali taluk.

Summary of discussion.—The Ayanur-Honnali road may, by a slight deviation, be made to pass through the Nyamti town, as it will improve its trade besides affording better facilities for the cultivation of valuable lands near Nyamti.

Reply of Government.—Recorded.

SUBJECT No. 501.

The Shikarpur-Masur road.

Messrs. Bhavani Rao, Sangana-basappa and Ramani Channa-veerappa, Shikarpur taluk.

Summary of discussion.—A road from Shikarpur to Masur in the Dharwar district is a long-felt necessity. Surveys were made last year by the Public Works Department but no further action has been taken in the matter. The work may be kindly sanctioned early.

Reply of Government.—The project is pending in the Public Works Department which will be asked to expedite it.

SUBJECT No. 502.

Protection of the high road between Seegehatti and Savari Palya on the bank of the Tunga river.

Mr. S. Sitaramiah, Shimoga taluk.

Summary of discussion.—This portion of the Shimoga-Tirthahalli high road is very much cut up and is being gradually washed off year after year in the rainy season. Something effective for strengthening the river bank should be done early, as there is otherwise danger of a portion of the town being damaged by the floods in future.

Reply of Government.—Will be referred to the Public Works Department for investigation and report.

SUBJECT No. 503.

A bridge across the halla near Holebenavalli on the Shimoga-Hole-Honnur road.

Mr. S. Sitaramiah, Shimoga taluk.

Summary of discussion.—Near the third mile on the Shimoga-Hole-Honnur road, all traffic ceases for days together as the halla across the road overflows its banks in the rainy season. A bridge across the halla may be kindly constructed at an early date for facility of traffic.

Reply of Government.—Noted.

SUBJECT No. 504.

Bridging the Kumudvati river on the Shikarpur-Ambligolla road.

Mr. Bhavani Rao, Shikarpur taluk.

Summary of discussion.—As the cost of constructing a bridge across the Kumudvati river is said to be very high, it is prayed that a causeway of at least 6 feet in width over the river may be constructed at a moderate cost, as much inconvenience for traffic is now being experienced when the river has to be crossed in the rainy season.

Reply of Government.—Under investigation in the Public Works Department.
